- *An 8-month intensive training program for Developers, specializing in Front-end, Back-end, and Mobile Development.*

University of Toronto (UTM)
Bachelor of Arts - BA
Philosophy & English Literature
(Dec 2016)

PROJECTS

Artier   [Demo] [Code]
React-Native | StyleSheet | Hooks | Redux | Firebase | Firestore
- An application that allows users to rate art in a swiping style identical to Tinder.
- Users can create an account and login via Firebase Authentication, and upload pictures of their art via their camera roll or gallery and store them in the Firestore database.
- Users can see the total number of likes and dislikes of their own art on their profile.

All Ball   [Demo] [Code]
React | Styled-Components | Hooks | React-Router | Fetch
- An application that, based on user input, displays various types of statistics about teams, games, and players in the NBA.
- On initial load, the home screen will display game results and the top five players from the previous night.
- Statistics can be sourced from 1985 to the current day, and dates are saved in local storage to ensure user input does not reset.

App Track   [Demo] [Code]
React-Native | StyleSheet | Hooks | Redux | Firebase | Firestore
- An application that allows users to create and store job applications with the Firestore database.
- Users can create an account and login via Firebase Authentication.
- All of the current user's jobs are displayed on the home screen with a swipe to delete function.

PROFESSIONAL EXPERIENCE

Account Manager
Active Sales Inc. | Dec 2016 - present
- Forecast and track key account metrics.
